The **M&C MOVE** is the most **advanced cylinder** within the M&C range. The unique U-clip with Trap Shark increases security. During core pulling, the Trap Shark prevents the screw from gaining grip in the cylinder.

THE POWER OF THE CYLINDER

● Movable element in the cylinder

The movable part activates the special security pin for manipulation protection.

● U-clip with Trap Shark

Increased security. An extra security layer that blocks forcing and manipulation.

● Against core pulling, drilling, and lockpicking

The cylinder has special techniques and increases security effectively.

● Double-sided operation

M&C cylinders are double-sided operable. Even if there is a key on the inside of the door.

THE POWER OF THE KEY

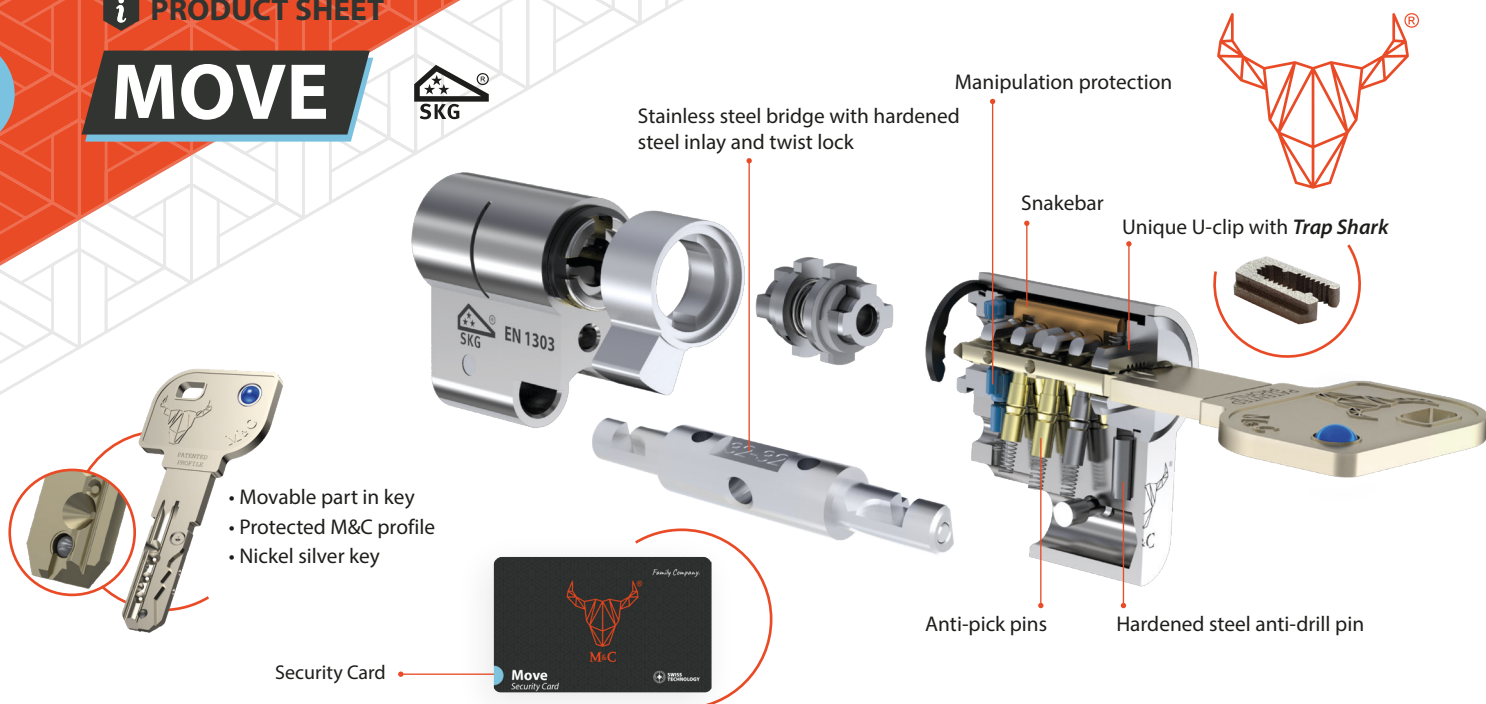

● Movable part in the key

Extra protection against key duplication.

● Precise key guidance

Smooth rounded key entry.

Modular system

With the modular components from M&C for the M&C Move, you save inventory costs and time. Cylinders can be quickly adjusted on site.

Extendable & door thicknesses

Extendable up to max 52 - 107 mm

Door thicknesses incl. fittings 60 - 159 mm

Suitable for standard doors and extendable in steps of 5 mm.
